Synopsis book

The cataclysm began more than a century earlier, when the King of Ayr died before naming an heir to the throne, and damned his realm to chaos. The cold-blooded conspiracies of the Renne and the Wills--each family desirous of the prize of rule--would sunder the one kingdom, and spawn generations of hatred and discord. Now Toren Renne, leader of his great and troubled house, dreams of peace--a valiant desire that has spawned hostility among his kinsmen, and vicious internal plots against his life. In the opposing domain, Elise Wills's desire for freedom is to be crushed, as an unwanted marriage to an ambitious and sinister lord looms large. As always, these machinations of nobles are affecting the everyday lives of the common folk--and feeding a bonfire of animosity that has now trapped an unsuspecting young Valeman Tam and two fortune-hunting friends from the North in its high, killing flames. But the closer Toren comes to achieving his great goal of uniting two enemy houses, the more
