#### Synopsis book

After the collapse of Afghanistans Soviet-backed government, a mullah finds himself doing anything to protect his students. Chaos reigns in the wake of the collapse of Afghanistan's Soviet-backed government. In the rural, warlord-ruled south, a student is badly beaten at a checkpoint run by bandits. His teacher, who leads a madrassa for orphans left behind by Afghanistans civil war, leads his students back to the checkpoint and forces the bandits out. His actions set in motion a chain of events that will change the balance of power in his country and send shock waves through history. The Mullah lives in isolation in an Afghan village with the students of his madrassa.

When one of them is beaten by bandits, he feels compelled to act, starting a chain of events that will change the balance of power in his country and send shock waves through history.
