Synopsis book

Some tombs should never be opened...Fluorine uranium carbon potassium. Jane's experiment really went wrong this time. After a fatal accident, teen scientist Jane becomes the first modern-day...mummy. Waking up in the Egyptian underworld without a heart certainly isn't the best-especially when it means Anubis, god of embalming, has to devour her soul. Yuck. But when Jane meets the drop-dead gorgeous god, suddenly she's thinking this might not be the worst thing to happen. And then she is pushed to do the impossible--just time-travel and kill King Tut. Well, every experiment has variables which can end in disaster... Jane just wishes she could decide whether she wants to strangle Anubis or kiss him.
