Synopsis book

Adobe Moon, Mark Warrens first book in a trilogy on Wyatt Earp is more than historical fiction. Though it is a period piece of the 19th century, it is a timeless story that relates to all of us. Regardless of when or where a person lives in time, each of us is faced with a universal plight: How do we become a man or a woman? And how do we find our place in the world? Do the times shape us? Yes, just as surely as the place and people around us. Family, especially. It has always been this way. What if you wanted to run away from home to fight in a war . . . but you were too young? What if you were forced to labor over 80 acres of crops by an overbearing father who knew nothing about giving some slack to his sons? And, as a fourteen year old, after accruing the requisite calluses of farming, what aspirations might you consider for your vocation? This is the story of such a boy who never quite finds all those answers. But because of his physicality, confidence, and a willingness to
