Synopsis book

In this sweeping adventure full of danger, action, and intrigue, the master who has been the model for bestselling authors such as Clive Cussler and Bernard Cornwell returns to his longest-running series, taking fans back to the very beginnings of the Courtney family saga. The son pirate and merchant Sir Frances Courtney, Henry Hal Courtney was raised at sea. When war broke out between the English and the Dutch empires, his father, fighting for the English crown, attacked a fleet of Dutch East India Company ships off the coast of Africa. That bravery was met with betrayal, and Sir Francis was executed. His heartbroken son witnessed his death and dedicated his young adulthood to avenging his father's name. Now, twenty years of war have passed. It is 1784, and a truce has been made between the English and the Dutch, ending the long years of battle on the seas. Hal, too has changed. He has become the captain of his own ship, and is soon to become a father himself. Navigating his crew
