Synopsis book

An ivory carving recovered from an uncharted shipwreck connects modern treasure hunters to Chikunda, a slave fighting to protect his wife aboard the 1794 slave ship, The So Jos Paquete Africa. As one of the ships discoverers, Part 1 of the novella is an adventure that puzzles over the identity of the cannons, nails and what seemed to be horse stirrups that recovered from the uncharted and wreck found and registered by this author in the 1980s. Then, in June 2015, CNN/BBC/New York Times, etc, announced that The Smithsonian Institute of Washington have identified a massive discovery off our coast -- the first and only slave ship in history ever to wreck while carrying slaves, and then be found. A sickening realization struck that those horse stirrups were nothing of the kind they were leg shackles. In 1794 The So Jos Paquete Africa, a Portuguese slaver bound from Mozambique to Brazil with 400 aboard, wrecked behind the waves in what is today one of the worlds most iconic
