Synopsis book

1593. Queen Elizabeth reigns from the throne while two rival spymasters -- Sir Robert Cecil and the Earl of Essex -- plot from the shadows. Their goal? To control succession upon the aged queen's death. The man on which their schemes depend? Christopher Marlowe, a cobbler's son from Canterbury who has defied expectations and become an accomplished poet and playwright. Now that the plague has closed theatres, Marlowe must resume the work for which he was originally recruited: intelligence and espionage. Fighting to stay one step ahead in a dizzying game that threatens the lives of those he holds most dear, Marlowe comes to question his allegiances and nearly everything he once believed. As tensions mount, he is tossed into an impossible bind. He must choose between paths that lead either to wretched guilt and miserable death or to love and honour. An historical novel with a contemporary edge, This Marlowe measures the weight of the body politic, the torment of the flesh, and the state
